PRESIDENT'S ANNUAL ADDRESS.

To the Members of the Ohio State Board of Commerce.

The Constitution of this Board states its purpose to be "*To make Ohio the best state in the Union in which to earn a living, operate a business, and own property.*"

We seek to establish these conditions through improving our laws. This purpose, and the method adopted for its accomplishment, must appeal strongly to every person in the State who is moved by an intelligent desire to promote the general and his own welfare.

During the year 1906 our membership list was increased by a net gain of 436, making the full number of members on November 30, 1906, 1858. In increasing our membership an effort was made to effect a better distribution throughout the state. We now have members in seventy-four counties, leaving but fourteen counties unrepresented. The importance of this distribution will be appreciated when the fact is considered that we now have members who are constituents of about eighty per cent of the membership of the General Assembly and are, therefore, in

position to use their personal influence with their Representatives to secure the enactment or defeat of any measure upon which this Board has expressed an opinion. Should an Annual Meeting of this Board be attended by all of its members, the gathering would be as large, and as representative of the industrial, commercial and financial interests of the State, as a State Convention of either of the great political parties. But it has no part in partisan politics. It stands ready at all times to endorse and aid the enactment of any measure that is well designed to promote the general welfare, by whomever it may be proposed. This policy makes friends in all parties and all occupations.

A BUSINESS PROPOSITION.

While membership in this Board should, in its broadest sense, be considered a patriotic duty, the benefits derived from its services make the membership a sound business proposition. The work done and the experience gained during the past five years has placed this Board in a position that enables it to now give to its members, and to all persons in the State who should become members, its guarantee that:

1. It will employ counsel to draft bills necessary to carry into legal and practical effect all suggestions made by its members for the improvement of the laws.

2. It will employ counsel to explain to the members and committees of the General Assembly all bills prepared or endorsed by it.

3. It will employ counsel to *immediately examine every bill and joint resolution* introduced in the General Assembly and to make an explanatory synopsis of such of them as are found to be important.

4. It will employ counsel having knowledge of existing laws; good judgment as to how the enactment of a proposed amendment or bill would affect existing laws, if enacted; and a good technical knowledge of the legal meaning of words and phrases, to aid members of the General Assembly in drafting amendments, bills and resolutions so as to make it certain that they correctly express the intent of their authors and are well designed to properly fit into the body of existing law.

The fiascos that have occurred through the enactment of laws that are so impracticable they cannot be administered, that are clearly unconstitutional, or that have been so changed in the process of enactment that they do not express the intent of their authors or of the General Assembly, show the necessity of having important bills carefully examined by experts at every step of procedure from their introduction until they are published as laws.

5. It will publish a "*General Assembly Record*" during every session of the General Assembly, containing the following information:

(a) A list of the names and addresses of all officers of State; members of the Supreme Court; and members of the General Assembly;

(b) Number, name of legislative author, and the official title of every bill and joint resolution intro-

duced, with an explanatory synopsis of the important measures, and the name of the committee to which each measure is referred;

(d) Action of all committees on all measures;

(e) A verbatim copy in full text of every roll call in Senate and House;

(f) Such other information as may be thought helpful to the members of this Board.

By this means every member of this Board will have opportunity to keep himself correctly and promptly informed regarding all measures pending before the General Assembly, and the legislative position and progress made by each.

6. It will supply each member, upon request, with *one* official copy of any bill or joint resolution he may desire.

7. It will send to *all members* an official copy of every bill and joint resolution deemed to be of sufficient importance to justify an appeal to each member to use his influence with the Senators and Representatives from his district to secure the enactment or defeat of the measure, as the case may be.

8. It will after due consideration, endorse or disapprove measures proposed by others and bring the weight of the combined influence of its membership to favor their enactment or defeat.

9. It will pay the expenses of all members of its standing committees necessarily incurred in attending committee meetings.

10. It will do a large amount of educational work intended to develop a correct and uniform public

opinion throughout the State in behalf of such questions of public policy as it may advocate or oppose from time to time.

11. It will do all of this work and accomplish results of great value to every taxpayer and business man in this State, if its membership is properly maintained and increased, without calling on any member for financial assistance beyond the payment of his annual dues (*Ten Dollars*) and the securing of one new member.

This guarantee reduces the question of a membership in this Board, for every business and professional man in the State, to a sound commercial proposition. The service which it guarantees to render is clearly worth to any member all it will cost him, and more. The result of work already accomplished proves this beyond question.

INVESTMENT AND RESULTS.

The members of this Board have paid for the support of its work, as follows:

YEAR	AMOUNT
1902.....	\$ 1,903.00
1903.....	4,670.00
1904.....	8,322.28
1905.....	17,511.50
1906.....	19,463.58

Total for five years.....\$51,870.36

In 1902, by reason of work done by this Board, a law was enacted "*To create a bureau of inspection and supervision of public offices and to establish a uniform system of public accounting, auditing and reporting under the administration of the Auditor of State.*"

Mr. Joseph T. Tracy, Chief Deputy of the Bureau of Inspection, has addressed the Board at this Annual Meeting on the administration of this law. In this address Mr. Tracy states:

"The aggregate amount of the findings as to illegal fees and unauthorized payments from county treasuries as disclosed by these investigations, amounts to over one million dollars, of which amount probably one-half has been returned to the public funds."

Here is an aggregate saving of \$500,000 accounted for *from but one source—county accounts*—with reported findings amounting to over \$1,000,000. It is not a violent assumption to presume that the direct savings and the aggregate findings from all sources—the accounts of all cities, villages, townships, school districts, etc.—affected by the enforcement of this law will amount to many millions.

In 1904, by reason of work done by this Board, a law was enacted requiring the deposit of State funds at interest for the benefit of the people. The benefits derived from the administration of this law are plainly stated in the following letter:

Treasury Department.

COLUMBUS, November 23, 1906.

“MR. ALLEN R. FOOTE, *Commissioner*,
Columbus, Ohio:

“DEAR SIR:—In compliance with your request of the 21st, it affords me pleasure to inform you that there are at the present time seventy-five (75) depositories for State funds located in various parts of the State of Ohio. The following statement shows the amount on deposit and the net interest received by the State since the operation of the Depositary Law:

DATE.	ON DEPOSIT.	NET INTEREST.
February, 1905....	\$1,050,000.00....	\$ 8,053.08
May, 1905.....	2,240,000.00....	11,614.55
August, 1905.....	2,250,000.00....	12,001.71
November, 1905...	1,856,900.00....	11,621.85
February, 1906....	2,780,000.00....	12,402.65
May, 1906.....	2,790,000.00....	15,408.96
August, 1906.....	2,850,000.00....	14,134.71

Total net interest..... \$86,237.51

“Trusting the above information will cover the points in question, I beg to remain,

Very truly yours,

(Signed)

CHAS. C. GREEN, *Cashier.*”

These facts enable me to present to you the following statement:

Saving from Public Accounting law..	\$500,000.00
Saving from State Depositary law....	86,237.51
<hr/>	
Total Savings.....	\$586,237.51
Paid for work.....	51,870.36
<hr/>	
Net gain.....	\$534,367.15

Can any member of this Board, can any business or professional man in this State, reasonably ask for any better return for his membership dues, or his donation than this?

Does not this result, in all fairness, entitle this Board to a membership from every business man in this State?

More than this, is not this Board now in a position which justifies it in demanding, as a moral proposition, a membership from every business and professional man in good standing in the State?

Forceful as this exhibit is, it does not tell half the truth. The benefits shown will not stop with the year 1906, they will continue and increase from year to year. They will be an ever increasing source of satisfaction to the people of this State, and an example ever increasing in brilliancy for the people of all other States.

But these two laws do not cover all the work done by this Board.

1902.

In 1902, in addition to the Public Accounting Law, the effect of the work of this Board can be found in the Municipal Code; the Ohio State Board of Uniform Laws; the Negotiable Instrument Code; the Taxation Constitutional Amendment; the Stockholders' Double Liability Constitutional Amendment; and the Governor's Veto Power Constitutional Amendment.

1903.

In 1903 the work of this Board was concentrated upon securing the adoption by the people of the several constitutional amendments mentioned above. They were all adopted excepting the Taxation Constitutional Amendment, which was defeated by those who controlled the action of the Republican State Convention in 1903 and prevented the placing of this amendment on the party ballot in the affirmative.

1904.

In 1904, in addition to the State Depositary Law, the effect of the work of this Board can be found in the Primary Election law, partially satisfactory, and the Common School Code.

1905.

The work of the Board for 1905 was confined to preparing measures to be submitted to the General Assembly in 1906.

1906.

In addition to the enactment of a County Depositary law; a partially satisfactory County Salary Law;

a law to regulate the sale of the property of general corporations; and a law requiring all chattel mortgages to be filed with the County Recorder, the following measures were made "half-laws," that is, they passed one branch and are now pending in the other branch of the General Assembly:—A bill to establish an Ohio State Board of Accountancy; a bill providing for the organization, regulation and inspection of financial institutions; a bill providing for the inspection of financial institutions; and a bill to regulate the conduct of primary elections.

A Joint Resolution to amend the Constitution on the subject of Taxation, proposed by this Board, was introduced in the House and is now pending in the House Committee on Taxation.

More than this was done. Many other bills were endorsed, or opposed, as conditions required. They were either made "half-laws," defeated or held in committees.

1907.

This statement clearly indicates the work for 1907. It is to acquire strength, by still further increasing the membership of the Board and by educational work done with the people of the state and the members of the General Assembly, to make it certain that all approved "half-laws" shall be enacted and all disapproved "half-laws" shall be defeated at the next session of the General Assembly. But far more important than this, in the opinion of those who are most actively identified with the work of this Board,

is the securing of the submission to the people by the General Assembly at its next session of the taxation constitutional amendment now pending in the House Committee on Taxation. The success of this measure means more to the business interests and general welfare of the State than any other measure now before the General Assembly.

In the Ohio State Board of Commerce the business men of this State have an instrumentality by means of which they can, at small cost, combine their influence for the accomplishment of any legislative result they may desire. They can now discard single-handed work, which is, comparatively, excessively expensive and ineffectual, and depend upon the work of this Board for the enactment of any legislative measure that is right and just and that can be successfully promoted by methods of publicity, by appeals to the reason of the people and of the members of the General Assembly. *This Board employs no other methods.*

I submit to the members of the Board, and to the people of the State, this resume and prospectus of the work of the Ohio State Board of Commerce with great satisfaction and perfect confidence that the business and professional men of the State will promptly show their appreciation of the value of the work done, and in process of being done, by supporting it with their active co-operation.

Respectfully submitted,

AMOS B. McNAIRY, *President.*
